

Thank you again to the community for all the love, support, and encouragement you've shown me. It truly means more than you know. I'm doing really well in school, staying focused, keeping my grades up, and pushing myself to do my best. I've also made a few good friends who make this journey even better.

I'm currently at Dyersburg State Community College, and I still plan to attend Baptist Health Sciences University in two years to continue my education in Sonography. Your support keeps me motivated, and I'm excited for what's ahead.

I am the daughter of Angela Keita and Mamadou Keita. I am currently majoring in Health Science at Dyersburg State Community College. I chose the community college route because it allows me to complete my foundational studies affordably while preparing myself for my career goals.

Education is very important to me, and I am determined to finish strong. My future goal is to be accepted into the Sonography Program at Baptist College and become an ultrasound technician.

I have a deep passion for helping others and plan to use my skills to give back to the Brownsville community. By providing quality care and support, I hope to make a positive impact on the health and well-being of the people around me.
